— HALIBURTON COUNTY'S OWN AND ONLY NEWSPAPER —

MINDEN, ONTARIO NOVEMBER 22—1951

5c PER COPY \$2.00 PER YEAR

FROST RE-ELECTED BY 9500 MAJORITY

Monmouth Council

Council meeting of the Township of Monmouth held Thursday evening, November 15th at 7:30 p.m.

The minutes of the previous meeting were disposed of in the usual manner.

A motion from Gibbs and McColl That Ed Earle be paid for 8 hours for man and team to replace logs along roadside and clear stones from field.

A motion from Gibbs and Finlay That the Clerk write the Department of Highways and Ken Webster in regard to snow plowing Township roads, also secure prices on small rotary snow plow.

A motion from Finlay and Gibbs That this Council appeal to L. A. Boucher, District Road Engineer, and our local member, Hon. L. M. Frost, that our road subsidy be increased to 80 per cent on roads and 100 per cent on bridges as this municipality has more than one third of the total acreage held by the Crown.

A motion from McColl and McCrea That Relief account of \$13.50 per paid.

A motion from McCrea and Gibbs that road account for October be paid.

A motion from McColl and Gibbs That the Armstrong Motors account for past 2 years be accepted by this Council.

A motion from McCrea, Gibbs That Accounts No. 42 and 43 covering Mrs Crofts cemetery account and assessors expenses be paid.

A motion from Gibbs and McCrea, That the 1951 Court of Revision be closed.

A motion from Gibbs and McColl That Frank Love be authorized to brush his road 33 feet wide. Work to be done free.

The meeting then adjourned until the next regular session.

Minden Bank Teller Transferred To Forest

Mr J. R. Heffer, the popular bank teller in the Minden Branch of The Canadian Bank of Commerce who has been with the bank here for nearly three years has been transferred to Forest and his position has been filled by Mr G. R. Phippen of Kirkland Lake.

Minden

Major F. J. Struthers of Toronto spent last week in Minden visiting his brother, Mr Orville Struthers, and Mrs Struthers.

Police Court Adjourned

Due to the Crown Attorney attending Senior Court, the police court which was to have been held last week in Haliburton was adjourned.

Eagle Lake Man Found

Mr Earl Laporte of Eagle Lake who became lost on Saturday last while out hunting turned up Sunday morning. When Mr Laporte became lost he showed good judgment in the woods. He built a fire and made himself as comfortable as possible for the night. Next morning he heard shots being fired by a search party and soon located them.

Special Recreation

Speaker

Chas. A. Weir, from the Department of Education, Community Programmes Branch, Toronto, along with Miss Orr, will put on a recreation demonstration and speak to High School student, Thursday, November 29th at 4 o'clock, Community Hall. There will be an evening session, 8 to 11 also for young and old.

Your Recreation Centre

Question: Why did the roof collapse?

Answer: Three reliable and unbiased contractors state that it was entirely due to inferior and insufficient lumber used in the truss work which was not capable of supporting the exceptionally heavy snowload.

Question: Was the building insured against falling down?

Answer: No, there is no insurance.

Question: Has the Recreation Centre been a financial success in the past?

Answer: Yes, it has more than earned the amount (\$1170.00 per year) required to meet interest and principal payments on present debentures outstanding. It has not cost the taxpayers one cent.

Question: What will it cost to re-build?

Answer: Your committee have received several tenders. Contractors must build to an approved architectural plan, steel or aluminum roof, plus the best materials available. The cost would not exceed \$20,000 as submitted by three experienced and reliable firms.

Question: How can this amount be raised?

Answer: Present plan is to raise \$5.00 by provincial wide public appeal. This campaign has been successfully launched. The provincial government have assured us that we will receive 25 per cent of the cost or \$5,000 in the form of a grant.

The balance of \$10,000 to be of 5 1/2 per cent - 15 years Township debentures.

Question: What will this cost the taxpayers?

Answer: The annual payment of principal and interest on a \$10,000 loan amounts to \$990 per year over a 15 year period. This amounts to less than 3 mills on our tax rate—example, if your assessment is \$200 your tax would be approximately 60 cents per year.

Question: Can it be built in time to use this winter?

Answer: This depends on you, if the financing can be arranged by the 1st of December the contractors claim they can have the job finished by the 15th of January.

Question: What if we just forge the whole thing?

Answer: We not only forget one of the biggest assets in the Township including hockey, curling, skating, figure skating and children's recreation etc., but we also go on paying about 3 1/2 mills on our assessment for the next thirteen years on the present mortgage as without the centre there can be no earnings to carry on these payments as they have been doing in the past.

Let's all get our shoulders to the wheel.

Minden Recreation Committee—Reg Booth, Harold Morgan, Jack Jackson, Mac Irwin, Cliff Booth, Ken Currie.

Haliburton Resident Awarded \$8,800 Damages

Haliburton, Ontario—In a judgement handed down in Supreme Court in Lindsay, Lou Consky of Haliburton was awarded \$8,000 for permanent injuries suffered by his son in an accident in which the boy was severely burned, and \$3,800 for expenses.

Originally, the case was brought against Mrs. R. Hanna, Bernard Hutchings and Herbert Sherman but Mrs. Hanna and Mr. Hutchings were absolved of any blame.

Jack Lyons Becomes Firestone Salesman

Jack Lyons, a very popular young man around Haliburton, has stepped out of Haliburton on a new venture. Last week Jack received a wire from the Firestone Tire Co. Ltd., advising him that he had been taken in to the Company as a salesman. He is working out of Belleville and has a very wide territory to cover each week in his work of selling tires for the Firestone Co. We of the County Echo wish him every success in his new position.

HELLO LES

We the electors of Victoria and Haliburton are calling to offer you our congratulations on being elected once again by the largest majority ever accorded a candidate in the Riding. According to the Party standings listed below, the great majority of electors from other Ridings thought along the same line as we did and as a result you find yourself as the Leader of one of the strongest Conservative Governments that has ever ruled the Dominion of Canada at Queen's Park.

At this time we feel that the overwhelming majority of citizens of Victoria and Haliburton, irrespective of Party leanings will wish you every success and God's Guidance in the great task that you have assumed as Premier of the banner Province of this great country.

Collin Brennan Now In London, Ontario

Collin Brennan of Haliburton is a boy that really gets around the country. While in the navy a while back Collin saw the world when he was in practically every country. Now he is a Flt. Cadet and is stationed in London, Ont. where he is taking his radio officers course. Collin is the son of Mr and Mrs George Brennan of Haliburton. We wish him the best of luck with his radio officers course. Collin spent the week end at his home here.

Newmarket Defeat Monarchs 10-3

The Newmarket Redmen were too much for the Minden Monarchs last night in a thrilling hockey game played at Newmarket. A good crowd sat in to see a conditioned Newmarket team step out against the Monarchs who were playing their first game of the season. For most of the Monarchs it was their first time on skates this season.

Newmarket led by the score of 2-0 at the end of the first period. It was 7-2 at the finish of the second and 10-3 was the final score.

Minden played with only two defencemen, Joe Iles and Max Richardson and both of them had to play 60 minutes which isn't anything new for either of these boys.

Goal getters for Minden were: Cec Olmstead, Herb Baker and Bud Kernohan. The Nicholls brothers, Bud Dart and Claude didn't make the trip.

Lochlin Couple Wed In Quebec City

On Saturday, November 3rd at 4 p.m. in the Chalmers Westly United Church by the Rev. John MacKay, AW2 Margaret Joan Burk was united in marriage to Corporal Mossom Russell Harrison in a double ring ceremony. The bride is the eldest daughter of Mrs. George Evon and the late Leslie Burk.

The groom is the second son of Mr and Mrs Cecil Morrison.

The bride and groom were attended by Cpl. and Mrs. Myril Clark.

The bride was in R.C.A.F. uniform. The groom and best man were in army uniform and the matron of honour was attired in a wine velvet suit with matching hat.

The groom has since left for overseas.

Haliburton County Population Now 7,606

The latest census figures show that the population of Haliburton County now stands at 7,606. At the census taken in 1941 the population stood at 6,695. In the same period the population of Victoria County rose from 25,934 to 26,991.

The following figures show the census for the different municipalities.

Women Teachers Assoc. Hold Meet

The Women Teachers Association of Haliburton County held their fall meeting at Ellen Cliff Lodge on Saturday, November 10. After the dinner, Mrs Brant Sisson of Eagle Lake presided over the meeting. Mr Stouffer spoke to the teachers then Mrs Joy Fielding of Maple Lake School spoke on her summer course in Education. Miss Betty Burk told of the Normal School summer course, and Mrs. Celia Brown of Lochlin on a co-operative library service. Mrs. Muriel Brown of Carnarvon gave a report of the Social Studies workshop at Geneva Park this summer. Mrs Brant Sisson gave a report of the Annual Meeting at Toronto in August, and Miss Edna Hadley of the Fall Regional Conference at Collingwood.

Mrs Shaver, on behalf of the women teachers, presented a cup and saucer to Mrs Muriel Brown, the Past President, as a gift showing their appreciation of her good work the past two years.

Breslau Redshirts Barred 'Too Good'

Kitchener, Nov. 21—Officials of the South Waterloo Rural Hockey league admitted yesterday that players from last year's all-Ontario rural championship team, the Breslau Redshirts, have been barred from competing in the South Waterloo league this year.

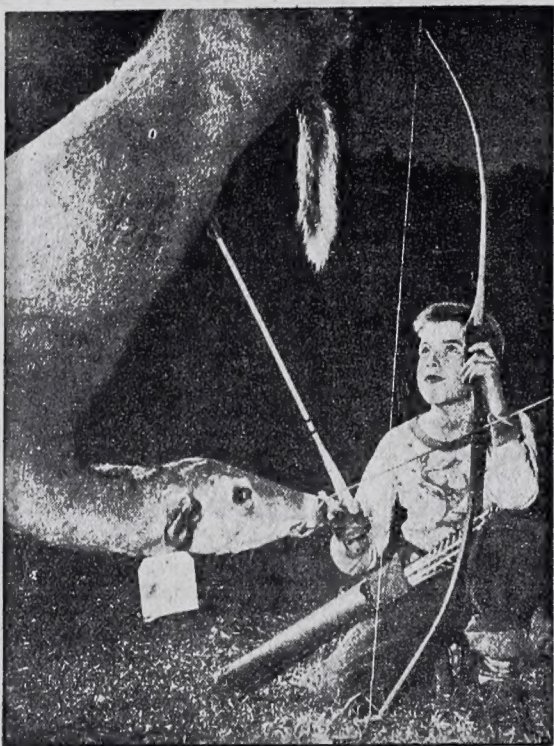

League President John Mieh of Centreville said the Redshirts had always been an "A" team in a "B" league and to let Redshirt men play for any other team would unbalance the league.

John Geasby, district convenor for the Ontario Rural Hockey association, said the South Waterloo loop would probably fold up if any of the teams signed the Breslau players.

It was reported that the Redshirts have applied for a berth in the Western Ontario amateur athletic intermediate series.—Toronto Daily Star.

Gets His Deer The Hard Way—Edward Knippling, 12 year-old schoolboy, holds the bow and arrow with which he killed the deer above, shown after it was hung on display in his back yard. Young Knippling, who delivers papers when he's not out stalking game, bagged the deer at the Holly River Park.

SPORTS & by A SIXBIT CRITIC

As this is written, the Ontario election is still ten days or so in the future. When it appears, it will be over—or just about. What the result will be we do not know—and care less than a good citizen probably should. Still, one of the claims we never have made is that of being a G.C.

So this column will largely be taken up, this week, with the concluding paragraphs from an open letter written, a few days ago, by J. W. Brown of New Liskeard who happens to be president of the Canadian Standard Bred Horse Society. The letter is too long to quote in its entirety, but we think that the portion we are passing along will be of considerable interest to a number of our readers, especially those—and they are many—who admire a good trotting or pacing horse.

"The 1951 meeting at Thorncliffe sustained a loss of \$60,000 much of which was due to the fact that we were forced to suspend operations during the Hamilton meeting. When we resumed (at the conclusion of Hamilton) our business had dropped 50 per cent from the previous week. Nonetheless, the Provincial Government collected \$206,000 in pari-mutuel taxes from Thorncliffe this year and the horsemen received only \$129,000 in purses.

"Our final suggestion was made to the Premier. We suggested that some of the tax moneys collected from wagering at Thorncliffe should be devoted to the Ontario Fund for Cancer Research. It was pointed out that the \$400,000 or more, collected in two seasons, was an entirely new tax contribution as harness-racing, previously had paid only a token-tax.

"It was suggested, furthermore, that some of these tax funds should be used by the government to bolster the purse program for harness racing at Ontario's Fall Fairs. Incidentally, in some American states, moneys for ALL AGRICULTURAL PRIZES at state fairs are paid out of the pari-mutuel taxes on racing.

"I submit, sincerely, that these suggestions were governed by good sense. The horsemen had been struggling to make both ends meet during the Thorncliffe season and we reasoned that increased purses at the Fall Fairs would enable them to break even on their year's operations.

"It has been brought to my attention that representatives of the present provincial government, who are contesting seats in the election of November 22, are making misleading statements concerning the harness-racing situation.

"They suggest that night harness-racing can be operated on any Ontario track, exclusive of the seven major running-horse tracks mentioned earlier in this review. The

truth of the matter is that pari-mutuel wagering is administered by the federal government, under the provisions of the Criminal Code of Canada. In other words, no NIGHT harness-racing meeting could be operated in Ontario unless the sponsors (be they in Clinton, Stratford, or Markham, etc.) are in possession of a charter issued prior to March 20, 1912.

"It is essential that this point should not be forgotten when the subject of harness-racing is under discussion.

"I am quite satisfied that the introduction of night harness-racing to Ontario would triple the value of Standard Breds in this province. "As an example; at one United States sale last year 431 yearlings were auctioned at an average price of \$1210. I must emphasize that these yearlings came from all types of farms—large and small.

"In this machine-age, when work-horses are being slaughtered for dog-meat, all the horse-power that is required on a small farm still would be a pair of Standard Bred mares. If the farmer raised only one colt each year and could sell it for the above-mentioned price of \$1210 it would prove very profitable.

"In reviewing this evidence, I believe that you will have to agree that never, since Confederation, has there been such an example of rank discrimination. Never before have we had the example of a provincial Premier pampering the millionaire breeders of thoroughbreds and the wealthy operators of running-horse tracks at the expense of the hundreds and thousands of farmers who breed and own Standard Breds."

FREEDOM WITH DIGNITY

Dignity—what's its meaning? True dignity flows from worth or value—the majesty of the king; the dignity of a diamond. But the man or woman in gaol has greater dignity. But he languishes in gaol either because he ignored his own dignity or the dignity of his neighbor.

Millions rot in political prisons or concentration camps simply because they are unknown. Unknown, that is, in their real nature by those who put them there. Ignore man's real worth and freedom dies.

The Catholic Church has a long history—close onto 2,000 years. It's bad logic to say that the Catholic Church has ever been trying to conquer the world for itself. In every generation the Catholic Church has been savagely attacked. That alone would convince the Church that it was impossible. So that can't be her driving force.

What is her hidden power? It lies in the crystal clear awareness of man's worth and dignity. The Church doesn't welcome persecution. But she will oppose any man or group of men who ignore or impose on man's dignity. To talk of freedom and ignore man's real worth is useless. Watch these messages in the future for an explanation of what the Catholic Church is and teaches about the majesty of man.

This is one of a series of messages by Father V. McGivney, Parish Priest, St. Francis Parish, Pickering, Ont.

Eagle Carries Off Farmer's Baby

The terrific power in eagle's talons was grimly demonstrated recently when a Highland shepherd, bending to look at an eagle which had been shot and wounded, was attacked by the bird. It fixed one set of its talons in the shepherd's neck and would not release its grip until its foot was shorn off.

Hares, wild cats and rabbits die quickly from the constriction of the eagle's talons alone. The grip is a locking one. When the bird bends its legs to take a hold, a ribbon-like muscle at its knee locks its grip, which can only be relaxed by the extension of the bird's limbs.

It is unusual for eagles to attack humans unless they are provoked, but in 1937 a farmer in Sassari, Sardinia, was horrified to see an eagle swoop down on his fourteen-months-old son and carry the child away in its talons.

Fortunately the farmer had his rifle and managed to hit the eagle. It fluttered to earth, still holding the child, and a second shot killed the bird.

The talons were embedded in the thick woollen coat the child was wearing, and he was unharmed.

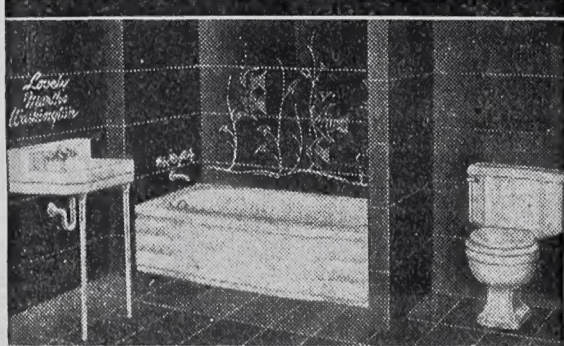

In 1924 a boy of fourteen, playing golf at Chatham, Ontario, was lifted six feet in the air when an eagle pounced on him.

The boy's clothing gave way and he dropped to the grass. The bird attacked him again but became enmeshed in a barbed wire fence and was killed.

One of the traits of the eagle is its habit of carrying to its nest odds and ends to decorate it. An electric bulb was found in one nest, a candle in another.

Shells, stones, a picture-frame, a gold watch, an old tire, have all been found, and almost every nest contains a plant or flower.

TABLE TALKS

Jane Andrews

Time to be at least thinking about those Christmas candies, isn't it? As a rule I don't mention individual firms or products in these columns, but I feel that I should say that the hints on different types of candy, and the instructions on how to go about making them, are taken from a very attractive booklet sent me recently by the Home Service Department of the Carnation Company Ltd.

Equipment. The size and kind of pan used in cooking candy are important. Enough room is allowed the mixture to cook without overflowing. A two-quart pan is used for all these recipes except caramels, which require a three-quart size. Any kind of pan can be used, but the candy will not stick as readily in a heavy metal pan as in a thin one. Aluminum, steel and copper pans are ideal for candy cookery. A wooden spoon is best to use for candy making. A candy thermometer is an aid in determining more accurately the temperature to which candy should be cooked.

Cooking. Mix ingredients and cook over low heat, stirring frequently, until sugar dissolves, then constantly, until candy is done. The acid in brown sugar will often cause candy mixtures to curdle. This curdled appearance will usually disappear, however, after cooling and beating.

THE COLD WATER TEST

Fill a small bowl with cold water. Remove candy from heat when making test so candy does not continue cooking. Allow small drops of candy to fall from spoon into cold water.

The Soft Ball Stage is reached when the drops can be gathered together in a ball that will just hold its shape, but which flattens on removal from the water.

The Firm Ball Stage is reached when the drops will form into a firm ball which does not flatten on removal.

The Hard Ball Stage is reached when the drops will form into a ball which is hard enough to hold its shape, yet is plastic.

The Soft Crack Stage is reached when the drops separate into threads which are hard but not brittle.

The Hard Crack Stage is reached when the drops separate into threads which are hard and brittle.

CHOCOLATE FUDGE

- 2 squares unsweetened chocolate (2 ounces)
- 2 cups granulated sugar
- 1/2 teaspoon salt
- 1 cup evaporated milk
- 2 tablespoons butter
- 1/2 teaspoon vanilla extract
- 1 cup nuts, if desired

Grate or chop chocolate fine. Cook sugar, salt, chocolate, and milk slowly until sugar dissolves, stirring constantly. Then cook over medium heat to soft ball stage (235 degrees F.), stirring all the while. Cool. Add butter and vanilla. Beat until fudge begins to stiffen. Add nuts and continue to beat until crystalline. Turn into buttered pan. Or knead until soft and plastic, and press into buttered pan to 1/2-inch thickness. Mark in squares. Makes 1 1/4 pounds.

Note: Chocolate Fudge may be made with cocoa instead of chocolate. Use 1/2 cup cocoa in place of chocolate. Mix cocoa thoroughly with sugar and salt, then proceed as above.

Marshmallow Fudge

Increase chocolate to 3 squares (3 ounces). Cook, cool and beat until fudge begins to stiffen. Add 1 cup marshmallows cut into bits and continue to beat until crystalline.

Peanut Butter Fudge

Add 1/2 cup peanut butter to fudge just as it is taken from heat. Cool and beat as above.

CREAM PRALINES

- 1 cup brown sugar, firmly packed
- 1 cup granulated sugar
- 2 cups pecans (1/2 lb.)
- 1/2 cup evaporated milk

Mix all ingredients thoroughly. Cook over medium heat to soft ball stage (236 degrees F.), stirring constantly. Cool slightly, then beat until mixture begins to thicken. Drop candy rapidly from a table-spoon onto waxed paper or a buttered baking sheet to form patties. If candy becomes too stiff at the last to drop into smooth patties, stir in a little hot water. Makes 20 patties 2 1/2 inches in diameter.

MEXICAN ORANGE CANDY

- 1 cup granulated sugar, caramelized
- 1/2 cup boiling water
- 2 cups granulated sugar
- few grains salt
- 1 cup evaporated milk
- 2 teaspoons grated orange rind
- 1 cup nuts

Place the 1 cup of sugar in the saucepan in which candy is to be cooked. Place over medium heat and stir occasionally until sugar begins to melt. Then stir constantly until all sugar is melted and deep golden brown in color. Add boiling water to the caramelized sugar and cook to smooth syrup, stirring constantly. Add the 2 cups sugar, milk and salt and cook over medium heat to soft ball stage (236° F.), stirring all the while. Add orange rind. Cool. Stir in nuts. Beat until crystalline. Drop from a teaspoon onto waxed paper. Makes 1 1/4 pounds.

MALLOW SQUARES

- 1/2 pound graham crackers (2 1/4 cups fine crumbs)
- 1 cup sliced dates (1/2 pound)
- 1/2 pound marshmallows
- 1 cup chopped nuts
- 1 cup evaporated milk

Roll graham crackers fine and reserve 1/2 cup crumbs. Cut marshmallows in eighths. Mix marshmallows with dates, nuts and all but the 1/2 cup crumbs. Add milk and blend well. Spread the 1/2 cup crumbs. Add milk and blend well. Spread the 1/2 cup crumbs in a square 9-inch layer cake pan. Roll mixture in the crumbs. Press to fit the pan. Chill, then cut into squares. Makes 36 1/2-inch squares.

DATE NUT ROLL

- 2 1/2 cups granulated sugar
 - 1 cup evaporated milk
 - 1 1/2 cups chopped dates
 - 2 cups chopped nuts
- Cook sugar and milk over medium heat to soft ball stage (235° F.), stirring constantly. Add dates and cook to soft ball stage (236° F.), stirring all the while to blend dates. Add nuts. Cool. Turn into buttered pan. Knead until creamy and stiff. Shape in a roll. Wrap in waxed paper or aluminum foil and chill, then slice. Makes 1 1/2 pounds.

"I'm in a tough spot!" the small boy told his mother sadly. "The teacher says I must write more legibly—and if I do she'll find out I can't spell."

Ingrid's Back—Film director Roberto Rossellini leans across a camera to give last-minute instructions to his beautiful wife, Ingrid Bergman, in the shooting of the movie, "Europe '51," in Rome, Italy. The Swedish-born actress "retired" from films last year after giving up her Hollywood life to marry Rossellini.

Famous Epitaphs

The story goes that a Chinese statesman, wishing to know something of the history of his people, collected the inscriptions on every tombstone in the vast Chinese Empire.

Having done this, he advised the Emperor that the only way to improve his subjects was to kill all the living and resurrect the dead.

At this time it was the fashion to devote epitaphs exclusively to the virtues of the dead.

Any attempt at humor or unkind criticism was sacrificed to lengthy, and often untrue, recitals of the qualities of the deceased.

The ancient Greeks, however, set a new fashion.

After a great battle between the Spartans and the Lacedaemonians (two of the rival states on the mainland of Greece) a memorial was erected with the inscription: "Go tell the Spartans, thou who passest by, that here, obedient to their laws, we lie."

Today there are people who collect epitaphs as a hobby. Their collections range from long lists of Latin titles to the very simple and frankly humorous.

"Excuse My Dust"

The most famous epitaphs are some of the simplest.

In St. Paul's Cathedral, London, for instance, you'll find an inscription in Latin to its designer, Sir Christopher Wren, which says: "If you seek his monument, look around."

Thomas Fuller, the seventeenth-century divine and historian, established a record for brevity with just the two words: "Fuller's earth."

Another short and simple one is that of Dorothy Parker, the American writer and humorist. She has written it in advance—being still very much alive.

It reads: "Excuse my dust." Verse is one of the favorite and one of the most famous—and mediums for the writers of epitaphs, amusing—is the inscription which mourns the death of Thomas Hyde:

"Here lies Tom Hyde;
It's a pity he died;
We had rather
It had been his father . . ."

Many people have been unable to resist the desire to pun in their epitaphs. A well-known example of this is the inscription to a man named More in a London church: "One More and no more can lie here alone;
But here lies one More, and that's more than one."

Another of a similar nature reads as follows: "Here lies Anne Mann; she lived An old maid and died an old Mann."

Some of the best collectors' pieces can be found in America. The code of the Old West, for example, is told on a natural rock gravestone in Cripple Creek, Colorado: "He called Bill Smith a liar."

While the career, political ambitions and final demise of another Westerner are told on a simple epitaph in Dodge City, Kansas:

"Ran for sheriff, 1872
Ran from sheriff, 1876
Buried, 1876."

Lastly here is an epitaph which is ideally suited to the age in which we live—the age of speed and rush. It was written by an American, Leonard Robbins.

"Here lies G. Whilliken's friends, all five.
He took them along when he learned to drive."

Needed A Mirror To Read Her Writing

Did you know that far more boys than girls are left-handed, that there is more backwardness among left-handed pupils, that the easiest way to find out a youngster's dominant hand is to ask him to unscrew a screw-topped bottle?

Miss Margaret Clark, who has been conducting a series of experiments with school-children in Scotland, has discovered that one boy in every three and one girl in every four are not completely "right-

sided." Her tests were also directed to detecting any preference by the children for using the left eye, foot or ear.

It is Miss Clark's contention that children who are left-handed would learn much more rapidly and experience much less frustration if they could write from right to left. To have to write from left to right is a distinct handicap to the average left-hander.

Why is it that most of us are right-handed? Some scientists have suggested that primitive man learned to realize that the left side of his body was more vulnerable than his right. He did not know that this was due to his heart being two-thirds on the left side. But experience taught him that a wound in the left chest was more dangerous than one on the right.

It isn't certain, however, that right-handedness was always predominant. Prehistoric implements found in France about twenty years ago established beyond doubt that in that country left-handed people were at one time twice as numerous as right-handed.

All the cats drawn by that great artist, Louis Wain, were drawn with his left hand. Landseer could draw not only with his left hand but with both hands at once! For some unexplained reason most of the Egyptian Pharaohs were left-handed.

A Cheshire doctor had a girl patient who discovered that she could write "looking-glass writing" with her left hand—a rare achievement. The girl was left-handed, and on getting her to write her name the doctor was surprised to see she was writing words that were clear and neat—but could be read only through a mirror. With her right hand the girl wrote imperfectly and with considerable difficulty.

I HAVE GIVEN GOOD ADVICE

During the nine years that I have been sponsoring mining and oil shares I have made a lot of money for a lot of people. I made the first public offering of Silver Miller at 22c a share. I recommended, and sold, a lot of Pan Western Oil shares at 25c. I recommended, and sold, a lot of Jupiter Oils shares at 18c. Last week Silver Miller sold at \$1.50 a share, Pan Western sold at \$1.75. Jupiter Oils sold at \$2.80. When I first offered these shares to my clients they were out and out speculations. Today all three are listed and traded on the Toronto Stock Exchange.

I Sincerely Believe I

Have Another Good

Low-Priced Buy

If you are in a position to invest one or two hundred dollars in a low-priced mining stock, you might do yourself a lot of good by getting in touch with me at once. We have had gold booms, silver booms, oil booms and base metal booms—in my opinion the next market move will be in uranium shares. Because I so sincerely believe that a lot of money is going to be made mining uranium I am sponsoring a property right in the heart of the active Beaverlodge uranium field in Northern Saskatchewan. On location alone, I feel that the shares should be selling in dollars instead of cents. From a speculative angle I consider them to be the best low-priced offering I have ever made.

Let Me Tell You

About Baska

If you would like to know why I believe Baska Uranium Mines shares are a better buy at this early stage than was Silver Miller, Pan Western Oil and Jupiter Oils when I first offered those stocks, send me your name. By return mail I will send you complete information. If you can get a copy of October 15th issue of Maclean's Magazine now on the newsstands, and read a full-length article about the Beaverlodge Uranium Area entitled "The Hottest Square Mile In The World." After reading it you will better understand my enthusiasm and why I believe we are just getting ready for a big market move in uranium shares. And whether or not you have ever bought mining shares, drop me a line or mail the coupon below. Doing this could be one of the best moves you ever made.

HUGH T. BORTHWICK & COMPANY (H. T. Borthwick, Sole Owner),
21 King Street East,
Toronto, Canada.

Dear Mr. Borthwick:
Please mail me information about Baska Uranium Mines Limited.

NAME

ADDRESS

I act as principle in the sale of the shares of Baska, which is a speculative issue. W.L.

AND THEREBY HANGS A TAIL

Milliners will gnash their teeth when they see this new displayed hair-do, recently in Paris. For how could a gal wear a hat with such an arrangement of her hair? The weird coneshaped coiffure, featuring a long curl dangling like a tail, is the work of Serge, a Parisian hairdresser.

Lester Walling and daughter attend Winter Fair

Mr Lester Walling and daughter Eleanor had a very busy week end in Toronto. Lester who is the owner of Walling's Dairy was very

interested in the Royal Winter Fair so he and his daughter were very delighted to have the opportunity to see this great show. On Saturday they saw the Santa Claus parade and at night they took in the Ice Capades. This year's Ice Capades were better than ever.

The average Canadian woodsman eats a pound of meat a day when working in the bush.

TORY HILL

The regular meeting of the Monmouth Home and School Association was held last Monday evening, Nov. 19th in the Tory Hill School House with fifty-five in attendance. The meeting opened with the singing of "O Canada", followed by the president's address of welcome. The Secretary, Sid Mason, read the minutes of the previous meeting held in Wilberforce last month and the report was seconded by Mrs Tighe. The Treasurer's report showed a balance of \$65 in the bank. The president brought up the matter of changing the name of the association from the Wilberforce Home and School to the Monmouth Home and School Association. Mr Stevens remarked that since the Association had grown to include the three communities of the municipality, namely Wilberforce, Tory Hill and Essonville and since meetings were held in the three different schools of the area, it was only fitting and proper that the name be changed. He therefore made a motion to this effect which was seconded by Mr. Sid Mason.

With regard to a Nature Study Chart for one of the two schools Tory Hill and Essonville, one having been previously purchased for the Wilberforce school, it was decided that the Home and School purchase one and make a request of the school board to purchase another one. Mr. Stevens requested that the chart purchased by the Home and School be placed in Essonville School.

The meeting was then turned over to the program convenor, Mrs D. Miller. To open the programme Mrs S. Brookings favoured with a piano solo "Claire de Lune", beautifully played. Mrs Miller then passed around questionnaire sheets pertaining to the Home and School activities, to be filled out. Study groups were suggested.

As the theme of the meeting was "Citizenship", Mrs Miller gave a few remarks on the subject and read portions from a pamphlet. This was followed by an address from Mrs D. E. Finlay on "Freedom of Conscience", which lead up to remarks on "Freedom and the Law" in a Democracy. Mrs. Wm. Hart then followed with an address on the origin of Political Parties and Party Memberships, stressing the importance of belonging to a party, giving support to our representative by casting our vote. Mrs Brookings favoured with another suitable piano selection "In Canada" the composition containing familiar Canadian tunes throughout.

Mr Ken Sanderson, president, then thanked Mr J. Noble and Mr Willard Dack, trustees, for their efforts in obtaining the projector for this meeting, trouble having been encountered with regard to its use previous to this. Four films relating to Citizenship were shown. The meeting closed with the repeating of the Lord's Prayer in unison, after which a delicious lunch was served by the Tory Hill members.

Mr and Mrs Lloyd Watson and children motored to Toronto last Friday and took in the Santa Claus parade on Saturday, returning the following day.

Little Elizabeth Hart, daughter of Mr and Mrs Wm. Hart is spending a week or so with Mr and Mrs Hal. Young at Little Britain.

Mr Bruce Dunford of Dunsford and Mr Tom Cunningham of Kinmount were in the village on business last Saturday.

Mrs Wm. Hart took a number of ladies from this community to a plastic demonstration held at the home of Mrs. Pickens in Gooderham last Thursday evening, November 15th.

The demonstration was in charge of Mrs Herb Wilson, Kinmount. All had a pleasant evening at the close of which Mrs Packard served a tasty lunch.

A successful dance, sponsored by

Lost Man Lies Down in Bush for Last Sleep Found on Final Search

Kinmount, Ont., Nov. 21—Dudley Stumm, 24, of Buffalo, was rescued yesterday after five foodless days and nights in the wild Haliburton bush country and just 90 minutes before the search party was to end its search and give him up for dead.

Twenty men, under Wallace Scott, game overseer at Kinmount, found Stumm lying on a knoll beside a swamp two miles deep in the bush near here. Unable to stand, Stumm was carried out on a makeshift stretcher of coats and is in Ross Memorial Hospital, Lindsay, where his condition is reported fair. Kinmount is 20 miles southeast of Minden.

"The first thing he wanted was a cigarette," Scott said. "Then he asked for food. He told us he was just about to go to sleep, a sleep he figured was his last, when we came along."

Had Lost Hope of Rescue

Stumm told the searchers he had said his prayers and had lost hope of rescue after he sighted a search plane yesterday but was too weak to signal it.

His feet and fingers were frost-bitten.

Scott said Stumm had a gun when he entered the bush last Thursday but dropped it when it became too much of a burden. During his wanderings the rescued man saw four deer and a bear, Scott said.

"We figured we'd give that section of the bush one last sweep beside the swamp and if we couldn't find him we'd give it up," the game warden said. "We normally would have quit in another hour-and-a-half."

Scott said Stumm had removed his shirt and bound his hands to keep them from freezing. Yesterday the lost man fell into a pool and was soaked when his rescuers found him.

Had No Matches

"He spent a day and a night on the knoll, the highest point of land around there. He had no matches and was unable to light a fire to keep warm."

On vacation from the Working Boys' home in Buffalo, Stumm was staying at a lodge on Burnt River with two priests, Father Howard Schwartz and Rev. Franklin Keller. They accompanied Stumm into the bush but became separated.

On Sunday George Phillips, Algonquin Park supervisor and an experienced bush pilot flew down to search by air. With him were Provincial Constables A. E. Edwards and Alex Hardy. They flew over the area for 30 minutes on one flight and 45 minutes on a second without sighting the missing man.—Toronto Daily Star.

Messrs R. H. Anderson Jr and Wm. Young, Wilberforce, was held here in the hall last Friday night, November 16th. The music was supplied by Messrs Wm. Brown and Chas. Hadley of Gooderham.

While travelling over the railway crossing in the village last Tuesday morning, Mr Albert McColl had a narrow escape with death, when the locomotive and car met at the crossing at the same time, but for the prompt action of the engineer, there might have been a serious accident.

Notice To Creditors

In the matter of the Estate of Ada Victoria Hughes, late of the Township of Minden in the Provincial County of Haliburton, married woman, deceased.

NOTICE is hereby given that all creditors and others having claims against the estate of the said Ada Victoria Hughes, who died on the 23rd day of December, 1950, are required on or before the 24th day of December, 1951, to send by post or deliver to Harold Hughes or Roy Hughes, c/o Hugh T. Nichol of Minden, Ontario, Solicitor for the said executors of the estate of the said deceased, their names and addresses and full particulars on their claims.

AND TAKE NOTICE that after such last mentioned date the said Executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said Executors will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by them at the time of such distribution.

DATED at Minden, Ontario, this 22nd day of November, 1951.

HUGH T. NICHOL, B.A.,
Minden, Ontario.

Solicitor for the said Executors.

Minden Skating Club to be Guided Again by Dianne Hamby

A meeting of the executive of the Minden Figure Skating Club was held last week and arrangements were completed for the engagement of Dianne Hamby as the Club Pro.

Miss Hamby is already working on the program for this year's Carnival and with the response for membership this year promises to be the best yet.

Arrangements have been made for the Club to skate at the Haliburton Arena until such time as our own Arena is ready for use again. Free transportation has been arranged to transport the Club members to Haliburton each week, through the good will of a few local citizens.

Considering the fact that the Club is operated on a non-profit basis, last year was a financial success. The Club paid over two hundred dollars to the Community Centre for ice time and Carnival Proceeds. The fees paid to the Club Pro amounted to three hundred dollars and Club operating and Carnival costs amounted to over seventy-five dollars. The Club has also donated one hundred dollars toward the rebuilding of the Community Centre. The total expenditures for this year amounted to \$698.44.

When you consider this expenditure with the fact that there were fifty-eight members and the membership fee being only five dollars, making a total of \$290.00 derived from this source the Club as a whole is to be commended and particularly those of the executive who were responsible for ways and means of raising funds to be able to maintain this low membership fee, meet the obligations they encounter throughout the year and have cash on hand of almost \$100. to start out a new season.

Membership tickets are now on sale for the coming season and may be purchased from any of the Club executive. They would make a fine Christmas Gift.

The Club is also going to have a Turkey Dinner Draw again this year and the tickets will be on sale in the very near future. This year the Draw will be made from the stage of the Beaver Theatre on Saturday, December 23rd.

Enquiries are coming in for the skate exchange. If you have figure skates that do not fit, take them to Don James Radio Shop and have them exchanged. There is no charge for this service.

Feed the Birds

The frost is once more on the pane
And shining in the trees,
The drab brown ground is white
With snow;
There's quite a stiff north breeze.

The bright and coloured feathered
birds,
Who sang all summer long,
Have all flown far away down
south,
We miss their happy song.

But we still have the chickadees
And snow birds by the score,
The bright blue jay, his croaking
cry,
We hear it at our door.

So let us sprinkle crumbs each
day
And share our crust of bread,
So these our loyal feather friends,
May now be always fed.
A. Nonymous.

MINDEN

Mr and Mrs Ken Currie were called to Guelph on Sunday evening, their daughter, Joanne, who attends College there had to undergo an operation following a sudden attack of appendicitis.

Mr Lorne Cooper of West Gullford spent Sunday with Mr and Mrs Reg. Welch.

Miss Betty MacArthur, who has been nursing at Oakville, is visiting her mother, Mrs Mae MacArthur.

Mrs Claude Brown and Barbara are visiting with Mr and Mrs Reginald Foster in Toronto.

Miss Florence Welch of Toronto is visiting in Minden now.

Mr George McKay of Barrie spent the week end with his mother, Mrs R. McKay.

Mr Wayne Aylor is now working in Cookeville.

Mr and Mrs George Phippen of Kirkland Lake have moved to Minden and are residing in the apartment vacated by Mr and Mrs Jos. Heffer. Mr Phippen is the new teller at the Bank of Commerce.

Miss Marjorie Pritchard spent the week end in Toronto.

Mrs Lorne Coburn and daughter Caroline spent a few days in Toronto last week.

The Women's Institute went to Toronto by chartered bus last Thursday. While there they attended the Happy Gang program, went to the Winter Fair and in the evening saw the Ice Capades at the Maple Leaf Gardens.

Mr and Mrs Joseph Heffer and daughter Susan left Minden on Friday for Forest, Ontario where Joe has been transferred to the Bank of Commerce there.

Mrs Agnes Barry, who has been on the staff at the Post Office this past three years, resigned her position there on Saturday.

Mr and Mrs Donald James and daughter Martha Anne spent the week end in Oshawa.

Mrs Roy Windover has been very ill with pneumonia. It is hoped she will soon be better.

Mrs Annie Cox held a party on Friday evening at her home, in honour of Mrs Agnes Barry, prior to her marriage. Quite a number of friends gathered to offer their gifts and good wishes for Mrs. Barry's future happiness. The hostess served a delightful lunch.

Mr and Mrs Leslie Prentice and daughter Eleanor spent the week end in Toronto.

Miss Jean Windover of Lindsay spent the week end at her home here.

Mrs Madden had a misfortunate fall quite recently and we are sorry to hear that a broken wrist resulted from it.

Mrs Esther Morgan and family of Alberta are now visiting with her relatives, Mr and Mrs Dunn Gibbs.

TORY HILL

(For week ending November 17th)

At a special Remembrance Day Service held last Sunday morning November 11th in Tory Hill United Church, two minutes of silence was observed in respect for our boys who fought in both World Wars. Mr Sid Mason, a veteran of the last war sang two appropriate numbers, Kipling's "Recessional" and the popular "It is No Secret". Mr. Frank Stevens delivered an inspiring address in keeping with the day.

Mr and Mrs Arch Anderson and son Bobby of Toronto were week end visitors at the home of Mr. and Mrs. R. H. Anderson Sr. They were accompanied home here by Mrs Pollard of Toronto who is remaining for a visit with Miss Blakely. Mr and Mrs Anderson accompanied them on their return trip and plan to remain in Toronto for a few days visit.

Mr Ian Finlay who is attending Parkdale Collegiate in Toronto was home for the week end.

Mrs Louisa Watson has returned to Toronto where she will remain with members of her family for the winter months. She was accompanied by Mrs W. F. Watson who remained for the week end with her daughter Barbara, who is attending Ryerson Institute of Technology.

The population of our little Community was suddenly swelled last week by the influx of hunters from far and near. Every available accommodation has been taken by hunters and we understand a group of Americans have purchased the old Hotspur schoolhouse and converted it into a hunting lodge. Several camps are located in South Monmouth. These include the Dixie Hunt Club, the old Hadlington school house, Monmouth Lake, the Armstrong brothers from Fenelon Falls at the Finlay farm. Hunters are also lodged at the residences of John Woods, Dave Lee, Garnet Lee, Stan Brookling, Willard Dack, Hubert Dunford, Stephen McCrea, Sandy McCall, Clarence Switzer and Clarence Carey.

Several parties have already bagged their quota of deer. We understand some parties departed for home without any game due to the unseasonable weather the first of the season. Snow became so deep on side roads that motorists were stranded and were forced to seek assistance in the village.

Here for the hunt from out of town were Mr Norman Dack and son Norman of Lindsay at their cabin on the S. Monmouth Road; Mr Gerald Johnsons of Bowmanville and Mr Howard Brookling also of Bowmanville at the home of his parents, Mr and Mrs Stan Brookling.

A hunter's dance, sponsored by R. H. Anderson Jr. was held in Andersons' Hall last Friday night. Judging from the crowd in attendance of local people as well as hunters the dance proved to be quite successful.

Phillip Finlay who volunteered to sell popples for the Canadian Legion Poppy Day Fund was successful in raising approximately fifteen dollars for this worthy cause. He met a generous response on Friday night from patrons at the hunter's dance.

The Executive meeting of the Monmouth Home and School Club was held in the Tory Hill school house last Monday evening, Nov. 12th with the president, Ken Sanderson, presiding. Plans were made for the regular meeting to be held in the Tory Hill school house, the following Monday evening, Nov. 19th. This will be "Citizenship" night and there will be special speakers on this subject as well as several suitable and interesting films shown. All interested are invited to attend.

A meeting of the Monmouth School Area Board was held last Monday evening, Nov. 12th at the residence of Mr W. F. Watson, Secretary Treasurer of the Board.

A number of veterans from this municipality attended the Memorial Service at the Haliburton C.C. notaph last Sunday morning when R. H. Anderson Jr., veteran of World War II placed the wreath for this district.

Haliburton Hockey Fans Take Notice

The ninth and final O.M.H.A. rules forum for this season will be held in the Leigon Hall, Lindsay, on Friday the 23rd of November at 8 p.m. Bill Morrison of Oshawa, a former O.M.H.A. and O.H.A. referee and now a member of Carl Voss' National Hockey League staff of officials, will be the guest instructor.

Successful forums have been held again this year throughout the Province by the Ontario Minor Hockey Association. Hundreds of referees, managers and coaches have been in attendance. The forum at Lindsay is open to all hockey officials and interested followers of the game.

Bill Morrison will cover the rules thoroughly and will give the correct interpretation for each. There will be a special period devoted to the explanation of special O.M.H.A. rules and duties of team managers and coaches. O.M.H.A. officials will be in attendance and will conduct this part of the forum.

These rules forums afford a great opportunity to young referees to benefit from the advice handed out by outstanding officials who have been "through the mill".

EDITORIAL

Down But Not Out

When the citizens of Minden awoke on the morning of November 7th, they learned that the roof of their splendid Community Centre had caved in. The citizens of this Community could certainly be pardoned if they had said "Well what's the use". When they thought of all the time energy and labour required to make such a building possible.

However this is not the first time that Minden has suffered from disaster. We well recall being there the morning after the big fire that wiped out half of the main street. Yes, things looked pretty grim on that dark and smoky morning, but out of those smoldering ruins arose a bigger and finer business section.

Like a boxer with a fighting heart who has received a stunning blow, the citizens of Minden have got up from the canvas and are fighting back with might and main to restore their Community Arena. The great need at the present time is cash. Let's give them a hand by sending our gifts to Minden Recreation Centre, Canadian Bank of Commerce, Minden.

Let's Protect Our Property

In looking over the expenditures for the Municipality of Dysart we find that during the last four months the sum of \$102.32 was required for light bulbs for street lighting. A good deal of this expense it seems is due to the fact that the chief recreation of some of our young boys is to see who can break the most light bulbs. It is our opinion that with all the recreational facilities made possible for our young people in Haliburton, surely some other form of amusement can be found instead of the destroying of public and private property. Vandalism at our public rest rooms and hockey arena coupled with the breaking of electric light bulbs can only result in added burdens to the taxpayers.

If as ratepayers we are interested in protecting our property we should be ever on the watch and report those responsible for these idiotic practices to the proper authorities.

Outside Spending

Residents of Haliburton County would do well to weigh the effects of spending their money outside the County. A conservative estimate of outside spending is \$100.00 per person per year. Actually we believe the figure to be much higher, when we consider that people "send out" for plumbing, heating, electrical and building supplies, clothing, footwear, groceries, etc., etc. All these commodities can be purchased from your local merchant and very often he can supply you with a superior grade of merchandise at about the same price. There are approximately 6000 residents in the County and by multiplying this by \$100.00 we have \$600,000.00 being sent out of the County each year. If this were spent locally, what a tremendous boost it would give to business throughout the County and everyone would derive much benefit. If your merchant does not have your needs in stock, he can procure them as fast as you can receive them from a mail order house.

The firms who flood the mails with catalogues, sales sheets, etc. pay no taxes, employ no local help, contribute nothing to local needs and support no local charities, your merchant and business man does all these things.

If your community is worth living in, it's worth working for. You earn your livelihood in the County and you owe it to yourself, your neighbour and your community, to support in every possible way the building of a better way of life in our wonderful County and the best way that you can show your zeal is to buy your needs in Haliburton County.

Give your local merchant the chance to serve you. As he prospers so do we all.

DONALD

Mrs Cecil Harrison spent Monday afternoon last with Mrs Geo. Exon at Lochlin.

Mr and Mrs Barny Howe recently celebrated their fifth wedding anniversary and many friends called on them to offer congratulations.

The hunters have returned to their respective homes, some with their deer, others not quite so frequentate.

Mr Ross Slaughter and party from Toronto spent a week at Harrison's Cottages and were fortunate to shoot a nice buck.

We are pleased to report Mrs Emie Brohm is able to return home again after some weeks in the Ross Memorial Hospital in Lindsay and the home of her daughter, Mr and Mrs Robert Pa-

card here.

Miss Barbara Pasquino spent the week end with Rebecca Harrison and attended Young Peoples' at Lochlin on Friday evening.

Mr and Mrs Cecil Harrison and Mrs Wm. Cowan called on Mrs Isabella Sedgwick on Sunday. We are sorry to hear Mrs Sedgwick suffered a slight stroke on Friday of last week.

Mr and Mrs Eldon Cowan called on their parents, Mr and Mrs Wm. Cowan on Sunday.

Miss Roberta and Master Jimmie Pringle visited with Rebecca Harrison on Sunday.

We are sorry to report Bruce Cowan suffered from a broken foot the result of a fall while hunting.

Mr Winston Churchill, back in harness again as Britain's Prime Minister, is to have "talks" with President Truman in Washington early in January and the announcement that he will also spend two or three days in Ottawa has been greeted with enthusiasm in all quarters. With his return to power Britain will resume her normal role in world affairs and hopes are that he will fashion a new structure for world peace. Undoubtedly his dynamic leadership will strengthen the free world in its fight against Communism aggression. His visit will be another great occasion in Ottawa.

The Old Age Pension of \$40.00 a month, which has been passed by Parliament has only a purchasing power of \$20.00 of pre-war days, and already the demand is being made that the amount is inadequate. Last week the cost of living index went up again and, month by month, it continues to increase. One often hears that it is our defence expenditures that is causing this, but the United States is spending on a greater scale than we are for defence, and yet the cost of living in that country is going up much more slowly than in Canada. The Canadian people rightly expect and the Opposition members have been urging that the Government do something about this situation, but the Government has done little or nothing to meet this challenge to our national economy.

In answer to a question asked by Gordon Graydon (Progressive Conservative Member for Peel) last Wednesday, the Minister of National Health, Mr Martin, stated it is hoped that the list the Bureau of Statistics is preparing from the 1921 Census Records of all those who are eligible for old Age Pensions will be completed early in December. I mention this because I know it will be good news to many in my riding who are encountering difficulty in providing proof of age to establish their right to receive this pension.

As I mentioned a couple of weeks ago, Opposition Members have been continually battling against this Session for increases in pension rates for our veterans and their dependents. This week the Government finally promised to take action. No intimation was given as to what the amount of the increase will be, but the Opposition is determined to do all in their power to ensure that our returned men receive fair and just treatment.

May I remind you that November 22nd is our Provincial Election Day — our chance to vote for our Premier Leslie Frost and thereby show our appreciation for the services he has rendered to us and to Ontario.

Winter Road Conditions

Inter regional road condition reporting service of the Ontario Department of Highways goes on 24 hour day winter schedule on November 1st, and will continue until April, 1952 when system will return to summer-fall basis. You are invited to seek information at any Department of Highways information centres listed below. Telephone numbers follow: Bancroft, 8 ring 2; Blind River, 393; Chatham, 947 & 948; Huntsville, 970; Kenora, 6494; Kingston, 6651; London, Fairmont 7433 & 7434; New Liskeard, 412; North Bay, 1130 & 1131; Ottawa, 2,9639; Owen Sound, 1850 & 1851; Port Hope, 2481 & 2482; Sudbury, 3-0573 and at Toronto, Parliament Buildings centre, Empire 3,1211 local 364 & 365, 9 a.m. to 5 p.m. daily except Saturday, Sunday and holidays; nights and other days, Waverley 1108. For information on road conditions in Haliburton County phone Haliburton 8020.

Fido, a dog's name, is taken from the Latin fidus, meaning faithful.

TENDERS RECEIVED UNTIL NOVEMBER 24th, 1951.
G. H. WINDSOR, Secretary, Community Hall & Park Board.

SPORTS

Spotlight on Sport BY NEON

The Monarchs took to the Lindsay ice last Thursday evening for their first practice of the 1951-52 season. Practically all of last years crew turned out with the exception of Gar, Barkwell, Ramshotom, Ace and Perc Nicholls. However they were replaced with additional members to the club in Joe Hes, Blanchard and Ken Carnohan of Haliburton and Johnny Lewis of Bexley not forgetting Cec Olmstead who is stationed in Minden now. In all it looks like the Monarchs can come out with a very impressive looking club this season when they wiggle into their new uniforms.

It also looks like the Monarchs have another player on hand in G. Phippen replacing Joe Heffer in the Canadian Bank of Commerce. Joe Heffer has been here for some time and a number were sorry to see Joe go as he had been a very enthusiastic citizen and helped in many ways on different sporting organizations. However Joe will find Forest a very nice place to live as apparently that has been his next move.

Apparently G. Phippen has a lot of hockey knowledge hidden away and the Monarchs are anxious to see this lad get right in the winter hockey groove.

If the finances for the Minden Recreation Centre picture were available Stuart Harrison has the clean up job away ahead of schedule and ready for the beginning of construction again at any time. Can we not get our shoulder to the wheel without any more delays and put this thing over again and show just what a community this size can do? It certainly is not going to bring in any revenue standing as it is. Far better isn't it to spend another ten than loss the one already put in. Let's get together everybody and see this thing through. Have you pledged to pay? Pay it. Did you donate before, if not do it now. Arrangements have been made in the Canadian Bank of Commerce for all monies forwarded to the rebuilding programme.

Old Man Winter is really turning it on these days whether its just a flash in the pan or not, however a good start could be made on getting a sheet of ice going and could be the earliest for a good number of years. Apparently Haliburton are already making there arrangements for a caretaker for this coming season and at present have a sheet of ice well on its way and could be if the weather man hangs on they will be skating there on the week end.

With the Toronto Daily Star, sports commentators and editorials giving the Minden Centre coverage this past week should be an incentive for excellent results on the committee drive to raise funds for the building of Minden's Centre.

The Minden Monarchs hit the hockey whirl in what's hoped to be a triumphant start when they take on the Newmarket Redmen in Newmarket this coming Thursday night. The Redmen are Intermediate A calibre and just what the Monarchs can do in that company will have a real bearing on what progress they can hope to make in their group this season. Although they have only hit the ice once so far this year for one hour they feel being actively engaged in combat will bring them around to their playing strength and eliminate their weaknesses that much sooner and have themselves prepared for the regular schedule ahead.

Win or lose this years aggregation of the Monarchs will sure give a good account of themselves with the addition of Joe Hes, Bud Dart, Al Blanchard, Ken Carnohan, John Lewis, Ralph Phillips and Cec Olmstead.

If Perc Nicholls gets back on the train with the Monarchs again this year enough said. There are many who love to see that character strut his stuff yet even he is riding his thirties he still has a lot of hockey ability tucked away in his frame yet. So its off to Newmarket Thursday for the opening exhibition game and with a team that held the revamped Lindsay intermediates to a win each on home games with Newmarket taking their home game from the Muskies by a 6-4 score, while the Lindsay crew turned the tables to the tune of 7-6 in Lindsay.

The local boys of C. Brown, A. Rogers, the Deacon Jackson, Glen Vasey, Jerry Gartlan, Laughed, showed well in practice and all

seem to have an edge on last year as they were really out there skating and seem to be in much better shape than at this time last year. The Monarchs won't have their new uniforms yet and it is not likely they will deck themselves out until they hold their opening game of the regular schedule.

With hockey equipment coming up, sticks, uniforms, pads, goalies equipment, etc., not forgetting the usual player insurance the executive of the Monarchs are trying to raise the usual programme advertising fee. To have a hockey club such as the Monarchs who carry the Haliburton County hopes it all takes funds and protection and in turn for the advertising sold the Monarchs Hockey Club feel they are giving the business house some form of remuneration from December to April while the programme is being turned out to thousands who purchase the necessary admission to see them at home. So lets not forget to take an ad in the Monarchs programme this coming season and help them over that biggest hump in the road that of getting the necessary to begin operations. They will do the rest.

Herb Baker May be Out With Lindsay Muskies

Herb Baker, the Haliburton Muskies Hockey flash may be back in Lindsay this winter. It won't be with the juniors as the age limit has caught up with Herb. Yes Baker may be out this season with the Lindsay Muskies who are in the O.H.A. and are sponsored by the Berlett Jackson Hardware. Herb has been hunting for the last two weeks and we hear that he had very good luck in shooting deer. If his eye is just as good around the net this season he will get a lot of goal for his team. It is not definite at this time but Herb is thinking very seriously of lining up with the Muskies. He went well with the Lindsay Juniors last season and was a big hit with the fans.

Lindsay hockey fans will be glad to see him back in Lindsay for the coming season. At the present time the Muskies are playing a group of Exhibition games. Good luck Herb in this coming hockey season.

Letters to the Sports Editor

76 Adelaide St. S.,
Lindsay, Ontario,
November 12, 1951.

Mr. Creighton Feir,
Sports Editor,
Haliburton County Echo,
Haliburton, Ontario
Dear Sir:

I am enclosing an O.M.H.A. press release that I hope you will be able to give some space to in your excellent paper.

Don Dart passed along a copy of your first issue to me and I must say I was quite favourably impressed with the coverage.

I was pleased to note in your columns that Haliburton is again to have this season a Juvenile team. I am glad to see Ron Curry taking an active parts with this team and you can assure him that the Ontario Minor Hockey Association will be most pleased to give them any assistance possible.

With best wishes for the success of your new venture, I remain,
Yours very truly,
BERT HICK,
A. E. (Bert) Hick,
Director,
Ontario Minor Hockey Association.

Simcoe, Ontario,
November 13th, 1951

The Editor,
Minden Echo,
Minden, Ontario
Dear Sir:

I noticed a press report regarding the collapse of your new arena and I want to express my regret at the loss which your community has sustained. I have had some experience with arenas and I know the work and expense entailed in carrying out such a project.

I wonder if you could let me know whether this arena was built locally or by an outside firm and what type of construction was used to support the roof.

Hoping that your Community will find ways and means to raise the necessary funds to restore the building.

Yours sincerely,
BRUCE M. PEARCE,
Pearce Publishing Company, Ltd.

County Sports Extras!

The big question confronting all football fans in the County today is were can we get tickets for the East-West Finals? Well, come to think of it that is a good question. As is past years the Grey Cup once again has all sport fans clamouring for tickets to see the greatest game of the season played between the winners of the east and the winners of the west. Regina, the Eastern champs have warned the City of Toronto that they will put on a show bigger than that staged by the Calgary supporters when the Stampede played in Toronto. This we have to see. But here we are two days until the football classic with about sixty thousand fans trying to get into Varsity Stadium when the seating capacity is only twenty-five thousand. So you can see that thousands will be sitting at home listening to the game on the radio. Many of the local football fans have told us that they would like to see the game but can't purchase tickets. A sport fan from Haliburton was telling us the other day that they are asking \$30.00 a ticket for seats that go for \$5.00 at a regular league game. So we hope that you lucky fans that have tickets will enjoy the game even though the rest of us have to remain at home. Yes fans, lets not forget that its his coming Saturday for the East-West finals. And oh yes, the game will be broadcast.

Be a good sport and give to the Glen Dart Memorial Fund. Its the fund were every dollar counts.

In a letter from our good friend Bert Hicks of Lindsay, he tells us that the Ontario Minor Hockey Association is holding a rules forum for this district in the Legion Hall, Lindsay, on Friday, November 23rd. Registrations will begin at 7:30 p.m. Plan to attend.

The hockey fans at Wilberforce are right on the job these days and they are beating old man winter to the punch. At the present time the citizens of this great sporting village are hard at work making changes on their new arena, the Monmouth Community Centre. At this time many changes to the ice palace have been made. The dressing rooms have been repaired and made larger, the rooms at the front have been changed and other necessary repairs have been made. Yes the hockey fans of Wilberforce are ready for that first cold spell when they can put the ice in their arena. It has been rumored that the Wilberforce Hockey Club will be entered in the

Olmstead Looks Good For The Monarchs

The Minden Monarchs expect to work out at the Lindsay arena until the time that ice can be secured at the Haliburton arena. All Hockey players in Haliburton County will be invited to the first workout of the Haliburton juvenile team in the O.H.A. Congratulations to Len Bates of Minden who is away this week to secure money of the construction of the Minden Recreation Centre. Good luck to Mr Bates a hard worker for Sports in Minden Cec Olmstead, the new Minden Monarch, proved to onlookers at the first practice of the Monarchs that he will be a big help to the club this winter Every dollar counts when it comes to giving to the Gen Dart fund. Give all you can The Minden Recreation Centre are calling on each and every citizen in Central Ontario to give \$1.00 so that the Arena can be put back in place. It's up to all of us to give and help in the rebuilding of this arena in Minden The Minden Monarchs will be playing in the same league as they had the pleasure of playing in last season. So the hockey fans of the County will be in for good hockey this winter The Monarchs are expected to play in Newmarket this Saturday night With then hunting season over we welcome hockey to our County.

Ontario Rural Hockey Association this winter. Good luck to the hockey fans and players of Wilberforce.

There is still talk and hope that the Northern Hockey League or the Little N.H.L. as it is better known will be back in operation again this winter. The league had a bad season in 1950-51 and at the end of the season it looked as though the league would fold. But we as hockey fans must remember that this league supplied hockey for players who otherwise would sit on the sidelines and miss their favourite winter sport. More on this matter at a later date.

The Minden Monarchs who are homeless at the present time held their first workout of the season in the Lindsay arena last Thursday night. Three of Haliburton's stars, Al Blanchard, Bud Dart and Joe Hes turned out for the first workout held by the Monarchs this season. Hes was the only defenceman out for the practice as Richardson was hunting and the others were unable to attend. Yes the Minden Monarchs are on the move and will play their home games at Haliburton this winter.

No move has been made at the present time to ice as senior hockey club in Haliburton for the 1951-52 season. We are wondering if the Haliburton Muskies will be on the ice this season. With the Minden Monarchs moving into the Haliburton arena this season and with some of the Muskies working out with the Monarchs it is very doubtful if the Muskies play hockey this winter. For one thing the Muskies from Haliburton are fed up with the Ontario Rural Hockey Association and you can't blame them when you think of the rotten deals they have had to swallow from this so called hockey organization. On the other hand the Haliburton Club is not in the position at this time to ice an O.H.A. Hockey Club. But there will be one O.H.A. team from Haliburton this winter and that will be a Juvenile club under the leadership of Jack Austin and Ronald Curry.

Imagination Helps A Whole Lot In Packing School Lunch-Boxes

Packing school lunches five days a week can become a monotonous chore; and, by the same token, eating cold lunches five days a week can become pretty monotonous, too.

However, if a little extra thought and a dash of imagination go into the packing, the noon lunch hour may well be something to anticipate. There will be no sighs on opening the lunch box—"The same old thing!"

Sandwiches, of course, are the backbone of the school lunch; and, with the seemingly endless array of fillings available, it is easily possible to have more than one different kind every day of the five. They can be made further intriguing by using fancy cutters writes Ethel M. Eaton in the Christian Science Monitor.

Children delight in surprises, and a nut-bread cat or a brown-bread pig will elicit squeals of pleasure. A stuffed crusted roll, too, is a welcome change from the usual sliced-bread sandwich.

The filling may be a tuna or salmon salad mixture or egg salad; finely chopped cooked ham and green pepper moistened with salad dressing is good, too.

For sweet sandwiches—a school lunch should always include one—these fillings are tops with children: (1) Peanut butter, sprinkled with brown sugar; (2) Peanut butter, with raspberry jam; (3) ground prunes and chopped walnuts; (4) Apple butter with graham crackers; (5) Cream cheese and chopped raisins or dates.

Don't overlook a variety of breads; nut bread, banana bread, orange-raisin bread, cherry bread, prune bread, and buttered muffins are sure to find high favor, even if ordinary fillings are used. Remember too, that deviled eggs—carefully wrapped in waxed paper—are far more entrancing than the plain hard-cooked kind.

Little cakes and pies always intrigue the young fry. When baking cake or pie, save out enough batter to make a tiny one for the lunch box. A small pie or round cake can go to school right in its tin and is easier to pack than a wedge-shaped piece which often gets messy.

Custard baked in a glass cup, with a dab of bright-colored jam in the center, is a tempting treat, especially if a gay plastic spoon is included rather than a silver one. A bit of candy, of course, never goes begging. It's a good idea to include two pieces of a different kind each day—avoiding chocolates—wrapping each piece separately in waxed paper. A handful of seedless raisins, tied in a paper napkin with a bit of bright ribbon.

A small lunch kit with a half-

pint vacuum bottle is practically a necessity for substantial and attractive lunches. The bottle will hold hot foods and drinks as well as cold drinks. And the top may be used as a cup; but do include colored straws, too, in the case of cold drinks.

If paper napkins are used, be sure they are the larger dinner size; otherwise little protection is afforded the child's clothing. To my mind, a large cloth napkin—a fresh one each day—is a far better choice. In fact one mother always tucks a 24-inch folded square of fresh white wrapping paper on top of the lunch, to be used as a "table cloth" when the lunch is eaten on desk or table.

When packing school lunches, it is desirable to keep in mind that a child's lunch should contain at least one-third of each day's food requirements. It should be adequate as to amount, and as tempting and delicious as possible to insure its being eaten and not discarded.

With a little forethought and planning, it is always possible to have a wide variety of lunch-makings on hand. A mother I know, who has to prepare not one lunch but three every school day, devotes a closet shelf and a section of the refrigerator to the requisite foods and accessories.

When shopping, she is always alert for "something different" to make her youngsters' lunches more tempting to the eye as well as to the appetite. One day she showed me some little red plastic sailboats with sticks of striped candy (paper-wrapped) for masts. "These will supply the candy quota for tomorrow," she explained.

4508 SIZES 12-20

by Anne Adams

Save dollars! Sew these new separates! ONE YARD 54-inch for weskit, ONE YARD for skirt. Pattern 4508 comes in sizes 12, 14, 16, 18, 20 and that magic yardage is for all these sizes! Sew TWO new wonderful separates to mix and match with each other and other separates. Belt-slots on skirt, flaps on weskit are new! Be smart, sew several of these!

Send THIRTY-FIVE CENTS (35c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME ADDRESS STYLE NUMBER.

Send order to Box 1, 123 Eighteenth St., New Toronto, Ont.

Old Man Winter surely crept up on us like a thief in the night. No doubt many people were caught unprepared. After all, when balmy breezes blow you don't think of blizzards as being an immediate possibility. We haven't got too much to worry about ourselves so we have time to wonder how many farmers have cattle away from home on rented pasture. It would be pretty hard on the poor beasts—they might have neither feed nor shelter—and Ontario cattle are not used to rustling for a living like western cattle.

While we haven't any major worries we have plenty of minor ones. Dealing with twenty head of cattle in the stable after they have been used to roaming the pastures, day and night, makes plenty of extra work. And the storm doesn't let you forget the little things either... the outside window that has to be replaced in the hen-house; water containers that must be emptied overnight to prevent freezing; the solution jug for the milking machine must be drained, and water let out of the tractor. Forget any of these little things and you make trouble for yourself. And of course with the snow blowing and drifting all the time you wonder how long before the line fills in. As to that it may be impassable right now—but of that we won't be sure until the milk truck comes along.

And what could have caused this storm so early in November? Could it have been practising with the atom bomb explosions, or is Canada putting on a practical winter demonstration for our Royal Couple. We certainly hope the cold spell won't stay too long or that it will not cause undue worry and distress for those who have to fight against it—although we haven't too much sympathy for those left stranded on the road when out on pleasure bend. Why anyone with a warm comfortable home should drive away and leave it in rough weather I'll never know. And it isn't just the young folk either... any kind of a social evening brings people out in the worst possible weather—young and old alike. But then maybe they are right and we are wrong—I wouldn't know. Certainly our preferences for staying at home doesn't mean we are anti-social—just fair—pleasure seekers, I guess. Making

hard work out of pleasure isn't our idea of enjoyment.

Which reminds me... pleasure (?) for some folk makes hard work for others. Last Wednesday was Halloween Night and some young vandals got the bright idea of travelling the roads and doing damage to rural mail-boxes. Some were ripped from their posts; others up-ended or damaged in some other way. The mail-man couldn't possibly deliver the mail without getting out of his car each time. So he was given a lot of unnecessary work as well as the farmers who had to fix the boxes.

Many people in this district are quite excited about the new Ford assembly plant to be set up in Oakville, the site of which is about 20 miles from here. Already real estate agents are advertising farms as being "commuting" distance from Oakville—although what connection farm property has with the assembly plant is open to conjecture. Where the thousands of employees will live is anybody's guess.

To my way of thinking the most important bit of news last week was an announcement that a new method of detecting cancer had been discovered, and is just as effective in the early stages of the disease as in the later ones. It has been established that the blood level of glutamic acid—which is always present in the blood—has a higher level in patients with cancer than it has in a normal person. Tests have been going on for some time and diagnosis has been found accurate in 91 per cent of the cases. If, after another six months, doctors are satisfied this new detection method is really satisfactory then it will be possible for anyone to have a routine check-up for cancer just as you can have X-rays for tuberculosis. If this should be possible the greatest threat will be removed from cancer as cancer is admittedly curable in most cases if treated in its early stages. This is of particular interest to me just now as only last week I got word from my brother in England that his wife had just passed away—presumably from this dread disease.

Get More Because They Produce More

Considerable interest has been aroused in the recent agitation in certain quarters for equalization of Canadian and United States wage rates. To those who jump at conclusions, there is some plausibility in the theory that a man doing a certain job in one country should receive the same pay as a man doing a similar job in another country. However, it requires very little thought and very little argument to demonstrate that this is a complete fallacy. As one of our correspondents points out, "the per capita output of Canadians is only about 3/4 of that of the U.S. Obviously, therefore, there is less per capita production here to share and that is what wealth is—goods and services, not money." The simple truth is that in the United States the people manage to produce more of the good things of life per head of population than we produce.

Mr. Gilbert E. Jackson, recently made the point that basically the "vastness of the market in the U.S. compared with the small size of our own market is mainly responsible for the difference in their production per man-power compared with our own."

We have repeated in these pages many times the fact that wages cannot advance unless accompanied by an equivalent rise in productivity. Canadians are just as capable and just as hard working as the people of any other country in the world. The miracle is that despite our small population, Canadians are the second richest people in the world. Let us not feel sorry for ourselves for not reaching U.S. standards but, rather, feel proud of the fact that our standard is second only to theirs. From The Chamber of Commerce "News Letter."

ACHES AND PAINS OF COLDS

HERE'S
QUICK
COMFORT!

And the
RELIEF IS LASTING

There's one thing for the headache... the muscular aches and pains that often accompany a cold... INSTANTINE. INSTANTINE brings really fast relief from pain and the relief is prolonged!

So get INSTANTINE and get quick comfort. INSTANTINE is compounded like a prescription of three proven medical ingredients. You can depend on its fast action in getting relief from every day aches and pains, headache, rheumatic pain, for neuritic or neuralgic pain.

THE FARM FRONT

by John Russell

Some weeks ago I passed on to you some information about the success of a large-scale experiment in rat control out in the Middle West. The article caused so much interest that I think you'll possibly welcome something further along the same line. And the following is borrowed—or perhaps I should say 'stolen'—from Waldemar Kaempffert, famous science commentator for The New York Times.

At last week's Boston meeting of the National Pest Control Association, Walter W. Dykstra, United States Department of the Interior, described a new phase in the constant war waged against an estimated rat population of 300,000,000 and a mouse population that is

probably larger. Anticoagulants are now used, said Dykstra—chemicals that retard or prevent blood from clotting. They are mixed with food.

When a rat or mouse eats bait to which an anticoagulant has been added, chemical changes associated with clotting of blood can no longer occur. Animals, especially rats and mice, which have a very small volume of blood, are weakened. Lack of oxygen and shock bring about death.

Warfarin is the most dramatically effective of the anticoagulants. It will not kill overnight no matter how strong the dose is. Between five days and two weeks must be allowed. In one unusual case as many as 550 rats were killed in Texas with fifteen pounds of warfarin—each rodent consuming only the minimum amount. Usually larger doses of warfarin are necessary.

Rats feed upon warfarin right up to their death—except those so

weakened a day or two before that they are unable to reach poisoned food. Few dead rats are seen. Other evidence has confirmed their death in concealed locations. Some rats are smart. In the laboratory they refuse to eat much anticoagulant bait if there is untreated food around.

The possible danger to pets is slight. A house cat would probably have to eat several warfarin-poisoned mice daily for a week or more before it fell sick or succumbed. Among farm animals, the greatest danger is to hogs, but there is little effect on chickens or turkeys.

No poison will kill all rats and mice in a community or even in a large building. Sanitation must be improved.

Credit for the introduction of anticoagulants for the control of rats and mice goes to an Englishman, J. A. O'Connor. He used dicumarol on the island of Malta in 1947. Warfarin was subsequently developed and released for sale on

July 1, 1950. Approximately a million pounds of the 0.5 per cent concentrate have already been sold in the form of powder and finished bait under about 300 different trade names.

Launching into the spelling lesson, substitute teacher Esther Smith asked the third-grade class, "Wouldn't your teacher be pleased if you all got 100 on the test Friday?"

To her surprise, one small boy spoke up. "I don't know whether she'd be so pleased."

"Why, what do you mean?" asked the puzzled Mrs. Smith.

Explained the little boy, "Well, you see, she promised the whole class a treat if we got 100."

A teacher once asked a small boy in her class if he understood the phrase "rapid enunciation." With the candor of the young, the boy replied: "Yes'm, it's the way folks say their prayers on cold nights."

When somebody smashed a window in his Long Beach, Calif. home, 102-year-old Charles Chapel jumped on his motor scooter, drove downtown and filed a complaint with the police.

MERRY MENAGERIE

"Oh, no, nothing's wrong—I just got sick of working like a beaver!"

FOR SALE BY TENDER

The following property of the C. M. Kellett Estate in the Village of Minden is hereby offered for Sale by Tender.

PARCEL NO. 1
Large White frame house on the corner of Newcastle Street and Chandos Street, having a frontage on Newcastle Street of 67 feet and a depth on Chandos of 94 feet.

PARCEL NO. 2
Small frame cottage, having a frontage on Chandos Street of 60 feet and a depth of 67 feet. Full cement basement and equipped with water pressure system.

PARCEL NO. 3
Newly erected Insul-brick cottage, together with garage, being composed of Lot 1 and part of Lot 2, West of Chandos Street and having a frontage on Chandos Street of 242 feet more or less, and having a depth on the South boundary of approximately 165 feet, and a depth on the North boundary of 67 feet. Together with the use of a right-of-way 12 feet wide, leading from the said property to Newcastle Street.

PARCEL NO. 4
Two double garages and one single garage located on the Westerly part of Lot 2, West of Chandos Street, and having a depth on the North boundary of 86 feet, on the South boundary of 80 feet and on the West boundary of 98 feet, and on the East boundary of 99 feet more or less. Together with the use of a right-of-way 12 feet wide, leading from the said property to Newcastle Street.

All of the above property has been surveyed and the boundaries are indicated by surveyor's stakes. Any enquiries in regard to the exact size and location of the above-mentioned lots should be made to Hugh T. Nichol, Solicitor, Minden, Ontario.

Tenders for the above property to be submitted to H. C. Forsyth of the Victoria and Grey Trust Co., of Lindsay, Ontario, not later than 5th December, 1951.

Tenders must be accompanied by a certified cheque, payable to the C. M. Kellett Estate for ten per cent of the Tender price. The Victoria & Grey Trust Co., reserves the right to reject any or all Tenders submitted; highest or any Tender not necessarily accepted.

By: HUGH T. NICHOL, B.A.,
Minden, Ontario.
Solicitor for Victoria & Grey Trust Co.

IT'S TRUE! By Wiley Pagan

Judy GARLAND
HAD HER HISTORIC RECORD BESTED BY DAUGHTER LIZA MINNELLI. JUDY MADE HER PROFESSIONAL DEBUT AT THE AGE OF THREE YEARS BUT LIZA BEGAN HER CAREER AT TWO YEARS NINE MONTHS IN M-G-M's "IN THE GOOD OLD SUMMERTIME."

Van JOHNSON
NEVER SUCCEEDED IN MAKING THE DRAMATIC CLUB IN HIGH SCHOOL. THOUGH HE DID WIN A LETTER PLAYING FOOTBALL FOR THREE SUCCESSIVE YEARS HE MADE THEPIAN ATTEMPTS BUT THE DRAMA COACH JUST COULDN'T SEE HIM!
